Program Evaluations

Program Evaluations for Transportation the Board. The district transports approximately 1000 students each day during the school year totaling around 300,000 miles. The Transportation department has maintained a 90% or better safety record for the past five years. Technology department has provided 1:1 electronic devices per student, all 6500 work orders addressed annually, up to 100% door access installation, and replacement of outdated software.

Student Assessments

The Curriculum & Instruction Department has implemented assessments for ninth graders and all CAIR students on PARS data. These assessments are used to identify students for interventions for students not yet at grade level, already at or beyond grade level. The Assessments cover specific domains such as phonics, vocabulary, and algebraic thinking.

Strategic Plan Mid-Year Review

Administration reviewed progress toward Strategic Plan Success, Workplace Excellence, Resource Efficiency, Family and Community Involvement. Progress is determined by the percentage of goals completed or complete.

Facilities Upgrades

The Board approved contracts to upgrade the school building and parking lot, and resurfacing the football field at High School.
